

FARMERS BUSY PLANTING BEANS & CORN ACREAGE

THIS WEEK HAS BEEN BUSY
TIME FOR FARMERS IN
PUTNAM COUNTY

Thousands of acres of corn and beans have been planted in Putnam county during the past week and more acres are ready to be planted if the weatherman co-operates and there is no more rain.

The rainstorm early Saturday morning will stop planting for a day or two, but others who are ready, will probably start again Monday morning. In some places over the county during the past week, the rainfall hasn't been so heavy as in other places and planting has progressed in these sections without interruption.

The oats that were sowed early this month and in many instances last month, are all well started and appear to be growing rapidly, due to the cooler weather and moisture that has been plentiful thus far.

Pastures are also reported in good condition and in all probability, there will be lots of hay this summer, due to the late spring and rainfall that seems to have favored alfalfa and other hay fields.

Party Workers Elect Chairmen

Precinct committeemen and women in Tuesday's election, met today to complete the county organizations, in the selection of a county chairman, a secretary and a treasurer for each.

The Republicans met in the court room at two o'clock, while the Democrats met in the council chamber.

It was expected there would be only the two candidates for chairman, Claire Albin, Democrat and Gilbert Ogles, Republican. During the week there has been no talk of there being any other candidates in the field, and in as much as these two have been serving several years, it was expected they would be re-elected.

Ex-Mayor Enters Governor's Race

SOUTH BEND, Ind. May 12.—John A. Scott, former mayor of South Bend, Friday entered the race for the Republican nomination for governor.

Scott, considered to be friendly with the wing of the state GOP led by Gov. Craig, had been mentioned as a possible candidate for high state office for several months. He was defeated for reelection as mayor in last year's Democratic sweep of municipal elections.

Scott said Friday the Republican campaign in the fall will be based upon the record of President Eisenhower. Gov. Craig and Sen. Homer E. Capehart (R-Ind.) Scott's entry boosts the number of Republican aspirants for governor to six with Lt. Gov. Harold W. Handley, a fractional rival of Craig's considered the pace-setter.

IN THE GOOD OLD DAYS

THIRD WARD SCHOOL—

"Work has begun again on the Third Ward school house, and it is expected to be finished in time for the Fall term. The cost, when ready for occupancy, including grounds, will not be more than \$25,000, and of this sum \$22,000 in bonds, have been issued by the Common Council, after the following report made by a committee to investigate the subject:—Your committee to whom was referred the report of the school trustees of the city, setting forth the facts of the purchase of lots, and the contracting for school buildings, and asking this Council to provide for issuing city bonds, to the amount of \$22,000 to day for lots purchased, and unfinished school building, would respectfully report, that your committee see but one course that can be pursued by this Council in the matter viz: to support the action of the trustees by passing an ordinance providing for the issuing of said bonds; yet, in providing for the wants of said trustees; your committee are aware that this Council must ignore the petition of a large and respectable portion of the taxpayers of the city, and disregard many facts that may be used as arguments against the immediate necessity for the erection of such school building; that your committee are not in possession of such information as would warrant them in reporting an actual necessity for the erection of such school building, yet the facts are as reported by the trustees. The lots have been purchased, the contracts have been let, and the building is under course of erection, and we find that by this action of the trustees the liabilities of the city have been increased twenty-two thousand dollars, beyond any provision to pay the same. For this, the said trustees are responsible, and any failure on the part of this Council to provide the necessary means to meet their contracts, would not only embarrass the said school trustees, but would materially embarrass such parties as hold contracts and have furnished material, and performed labor on said building. In view therefore of avoiding such embarrassments, your committee have caused to be drafted an ordinance providing for the issuing of bonds on the city to the amount of twenty-two thousand dollars." (April 12, 1957)

SEVERAL GREENCASTLES—"Three letters were received here in one mail yesterday for Greencastle, Pennsylvania. Letters are also frequently received for the offices of the same name in the States of Iowa, Kentucky, Missouri, Ohio and Illinois, while letters intended for this place are sometimes sent to these offices."

PUTNAMVILLE NEWS—"The time for the Corporation election is drawing close, and if the present 'city dads' hanker after the offices for another term, they should fix up the town pump.—Miss Shoptaugh's select school opened last Monday morning.—Baby business is about the only thing not affected by hard times.—Three in town in that many weeks.—The county commissioners concluded that we didn't need a bridge across Deer Creek, and the citizens of this township will conclude at the next election that they do not want the present Commissioners, and will contribute their little mite toward electing them to stay at home." MANY AUTOISTS ARE EXPECTED ON HIGHWAYS

PREDICT CAR-TRAVELING
VACATIONISTS WILL
SET NEW RECORD

WASHINGTON, May 12.—(UP)—The American Automobile Assn., said Saturday it looks for 60 million car-traveling vacationists to hit the highways this summer in what could be a record turnout.

Elmer Jenkins, the association's national travel director, said inquiries from motorists doing advance planning already have increased 10 percent over last year. He said Florida probably will be one of the major vacation areas and that Mexico, with its favorable rate of exchange, should see a big influx.

"Long distance motoring generally is expected to be at a high level," he said. "The opening of new roads enables motorists to cover greater distances in shorter periods."

He pointed out that completion of the Indiana turnpike this year will extend the chain of eastern express routes as far west as Chicago. He also cited the new Pacific highway from Nogales, Ariz., to Mexico City via the Pacific Coast. He said this gives a new direct route from the western states and a circle route for travelers from the East who enter Mexico through Laredo, El Paso, and Brownsville, Tex.

He said improvements in the national parks, particularly in over-night accommodations, will account for increased attendance at those touring areas. He said the triple-A expects to issue 1900 million pieces of touring literature to its 5 million members.

Atomic Sub To Visit New York

GROTON, Conn., May 12.—(UP)—The atomic-powered submarine Nautilus, which can submerge in the Thames River here and race full speed under the Atlantic to surface in the Thames River in England, leaves for New York today.

The purpose of the trip is to open armed forces week Sunday by cruising up and down the Hudson River to New York and Jerseyites can take a look at the ship which has started a new naval era and pointed the way to revolutionary civilian uses of atomic power.

Twelve newsmen were scheduled to make the trip from the submarine base at Groton to New York as guests of the Navy. Tonight the Navy was to put the Nautilus through its paces in deep water for them. Her speed, maneuverability, and ability to stay underwater indefinitely makes her one of the deadliest warships ever built.

NEWSMEN HOLD ANNUAL DINNER IN WASHINGTON

IKE, OTHER PERSONALITIES
RAZZED AT GRIDIRON
BANQUET

WASHINGTON, May 12.—(UP)—President Eisenhower, Democratic contenders and politicians in general got a good-natured chiding Saturday night from Washington's famed Gridiron Club.

So did the "Russian Twins," Bulganin and Khrushchev, oil lobbyists, Presidential Assistant Sherman Adams and a host of others who make news in the world scene.

The occasion was the newspaper organization's 71st annual dinner, held at the Hotel Statler. The President was the guest of honor in an imposing assemblage that included top members of his official family, big-name Democrats, justices of the Supreme Court, members of the diplomatic corps, the military and Congress, and prominent editors, publishers and businessmen.

Only toast of the dinner, in tradition of the club, was to Mr. Eisenhower. His reply was off the record, under club rules that "reporters are never present." Also off the record were speeches by Gov. Christian A. Herter of Massachusetts, for the Republicans, and Sen. Walter F. George of Georgia, for the Democrats. Since this is an election year, tenor of the club show was political. Gridiron President Roscoe Drummond of the New York Herald Tribune opened the keynote in his delivered "speech in the dark."

BENSON POSTPONES TRIP TO THE MIDDLE WEST

WASHINGTON, May 12.—The Agriculture Department said Friday that Secretary Benson has postponed until later this month a tour of farming areas of Iowa and Nebraska.

A Benson aide said the decision to delay the tour was made because of the possibility that the new farm bill now pending in Congress may not come up for Senate action until late next week.

The secretary wants to be here when the measure, already passed by the House, comes up for Senate vote.

Auto Union Sees Gloomy Future

DETROIT, May 12.—(UP)—Auto Worker Union officials predicted an even gloomier future today for skidding auto production figures and mounting lists of idle employees.

Industry spokesmen confirmed new cutbacks in production but said they were temporary and indicated they thought union estimates of unemployment a bit too high.

United Auto Worker Union chief Walter P. Reuther said Friday that he saw "no hope for the usual seasonal pickup" in auto sales this spring and consequently little help for production figures, now at a new low for the year. He said indications "point to a worsening of the situation."

Red Radio Boasts Of Air Strength

LONDON, May 12.—(UP)—Radio Moscow, expanding recent ominous warnings by Communist Boss Nikita Khrushchev, said today Russia has the power to strike a "massed blow" at any major military base in the world.

The broadcast, quoting an attack by the Communist organ Pravda on U. S. Gen. Alfred M. Gruenther, retiring NATO commander, said it is about time America's leaders realize the United States has no corner on military striking power.

"There is no considerable military base in the world which would be out of reach of present day military equipment," the broadcast said.

Navy Postpones Marine's Trial

WASHINGTON, May 12.—(UP)—The Navy has postponed until July 14 the court martial trial of S-Sgt. Matthew C. McKeon on charges of leading six Marine recruits to their death at Parris Island, S. C.

Navy Secretary Charles S. Thomas announced Friday he requested the postponement at the request of defense attorney Emile Zola Burman of New York. Burman said prior commitments would prevent him from preparing McKeon's defense earlier. The trial was scheduled to begin Monday.

TOWN FILES PETITION

INDIANAPOLIS, May 12.—(UP)—The town of Lowell petitioned the Indiana Public Service Commission today for authority to issue \$220,000 worth of waterworks revenue bonds and to raise rates.

IKE COMPLETES "HEAD TO TOE" PHYSICAL EXAM

PRESIDENT WILL SPEND
SUNDAY AT GETTYS-
BURG FARM

WASHINGTON, May 12.—President Eisenhower left the Walter Reid hospital shortly before noon today after undergoing a "head to toe" physical check up on Friday. The report of the finding of the corps of doctors was expected to be made public shortly after noon.

Several old friends called on Eisenhower Friday and he visited the children's ward to thank half a dozen youngsters who had sent him greetings in the form of notes.

Mr. Eisenhower made his second term announcement shortly after his last major medical checkup in February. However, that checkup concentrated chiefly on determining how completely he had recovered from his heart attack last Sept. 24.

Dr. Paul Dudley White, the President's heart specialist, said after the February examination that "The President should be able to carry on an active life satisfactorily for another 5 to 10 years."

Mr. Eisenhower entered the hospital Friday afternoon for the routine physical checkup that he likes to have at least once a year. He occupied the plush presidential suite on the hospital's top floor.

He spent his spare time Friday going over home papers and padding about the big Army medical center in his bathrobe and slippers.

He chatted with 82 year old retired Maj. Gen. Frank Cachelu, Lt. Gen. Carter B. Magruder and Philippines Ambassador Carlos P. Romulo. Later he visited the children's ward to thank some youngsters for notes they sent to him wishing him good health and asking about his grandchildren.

The President also took with him to the hospital an old friend's latest book, "History of the English Speaking People" by Sir Winston Churchill.

Mr. Eisenhower will attend the annual Gridiron Club dinner tonight.

Eisenhower expects to spend Sunday at his farm in Gettysburg, Pa., where Mrs. Eisenhower and her mother, Mrs. John S. Doud, went Friday. He will return Sunday night of Monday morning.

Sunday is Mrs. Doud's 77th birthday.

MONON PETITION DENIED

INDIANAPOLIS, May 12.—(UP)—The Indiana Supreme Court denied a rehearing to the Monon Railroad late Friday in the railroad's efforts to discontinue agency service at Cedar Lake.

The State Public Service Commission authorized Monon to discontinue, but New Circuit Court reversed the PSC order. PSC then appealed to the high court, which ruled the agency service must remain.

R. R. MUST PAY

INDIANAPOLIS, May 12.—(UP)—Two railroads were directed today to repay the Saxton Coal Co., Petersburg, \$35,466 for "excessive and unreasonable" charges on hauling coal.

The Indiana Public Service Commission order applied to the Algers, Winslow and Western Railroad and the New York Central. The overpayment was made in 1955 for shipment of 602 tons of coal from Muren to Sommerville.

IN MEMORY

In memory of our Mother, Stella Wells, who passed away sixteen years ago May 13, 1940. At twilight when evening draws near,
And sunset flames the sky,
We think of you, dear Mother,
And the happy days gone by.
We think of you in that grave safely sleeping
Where the grass will always wave.
Sweet thoughts of you will linger
In that dark and lonely grave.
Sadly missed by the Wells children. pd.

PROCLAMATION

Whereas mental illness is the most serious single health problem confronting the nation, and
Whereas many mental patients are unable to get the treatment they need because mental hospitals are overcrowded, understaffed, and short of medical supplies and equipment, and
Whereas many people suffering from emotional disorders are unable to get help because there is a severe shortage of psychiatric clinics and private psychiatrists, and
Whereas mental illness research is being hampered by lack of funds and personnel, and
Whereas these conditions can be remedied by concerted action of the citizens of our city, our state and our nation,

Therefore, I, Evan Crawley, Mayor of Greencastle, do hereby proclaim the week of May 14 to May 21 as Mental Health Week, and furthermore call upon the citizens of Greencastle to help the mentally ill by contributing to the local mental health drive both financially and in every other way, so that we may look toward the day when mental illness will no longer be the nation's number one health problem but will be conquered by research and early treatment.
Mayor, Evan Crawley

More Red Air

RUSSIA DOES have more modern heavy bombers and is turning them out faster than the U.S., Defense Secretary Charles E. Wilson tells reporters in Washington, but he refuses to go along with statement of Gen. Curtis LeMay, Strategic Air commander, that in two to four years Russia will have superior long range striking power under present projected plans of both nations. He said LeMay is a "dedicated specialist" who is commendably zealous about "his part of the business." (International)

MARCH OF EVENTS

Democratic Chiefs Split
Over Civil Rights Policy

Widening Breach Between
North and South Alarms

Special to Central Press Association

WASHINGTON—Top Democratic party strategists are becoming increasingly worried about what the North-South split over civil rights will do to their chances in the 1956 election. Unless some way can be found to heal the widening breach between the two factions of the party, the Democrats will find it extremely difficult to agree on a presidential nominee at their Chicago convention.

Adlai Stevenson is the only one of the leading aspirants now acceptable to the South. However, his failure to defeat Estes Kefauver in the Minnesota primary and opposition from Negro groups have damaged his chances.

Senator Kefauver, despite his recent upward surge, definitely is unacceptable to the southerners as is Averell Harriman, the New York governor and staunch civil rights advocate.

If Stevenson can't win the nomination on an early ballot at Chicago, the southern delegations may tie up the convention unless some "dark horse" emerges who is more to their liking than Kefauver or Harriman. However, the question is, "Who will be the dark horse?" No one seems to know now.

LOOKING AHEAD—A hard-headed, far-sighted look into the political facts of life was one of the major ingredients in President Eisenhower's almost irrevocable decision to have Vice President Richard M. Nixon as his running-mate again.

Administration insiders point out that if Mr. Eisenhower wins he will become the first President of the United States ever to serve in the White House knowing he cannot run again. The new constitutional ban on a third term will apply for the first time.

Not only the President will know he is forbidden to seek reelection; so will the people in general and the Republican party in particular. During his second term, Mr. Eisenhower will be robbed of much of the power that he enjoyed during his first four years.

Because of this situation, White House political experts decided that Mr. Eisenhower's vice president from 1957 to 1961 must be a man who could exert great influence on Republican members of Congress to keep them in line with the administration. He would also have to have a strong chance of running for the presidency himself in 1960. No one else but Nixon filled the bill so perfectly.

HEATED CAMPAIGN—The campaign is building up to be one of the hottest in history and plenty of bitter, personal charges and counter-charges will be made. Evidence of this is the scrap between Mr. Eisenhower and former President Harry S. Truman and the squabble over the health of the present chief executive.

Truman touched off some real fireworks when he charged that Mr. Eisenhower is a "do-nothing" President. Ike came back through his News Secretary James C. Hagerty and said, in effect, that Truman had never achieved anything.

At the same time, the Democratic national chairman, Paul Butler, teed off on Mr. Eisenhower for being on a golfing vacation at Augusta, Ga., during the explosive Middle East crisis.

IKE AND GOLF—Republican strategists feel, however, that the attacks on the amount of time the President devotes to his golf game actually are helping the chief executive. Prior to his first attack in September, criticism of his fairway schedule was growing all most daily. At that time, some GOP experts were fearful that such attacks could do damage.

Now, however, in view of Ike's heart attack, these quarters feel that such criticism of Ike's golfing merely helps convey to the public the impression that the President is healthy enough to hold down his job for another four years. As such, these strategists feel the attacks help to cancel out the feeling that Mr. Eisenhower's health should be an important consideration at the polls in November.

and labor; said bond to be in full force and effect for a period of one (1) year from the date of the first acceptance of the work or service.

Dodge Corporation, Architects Bldg., Indianapolis, Indiana; Russellville, Indiana, and plainly marked to indicate the project and particular branch of work covered by the enclosed bid, and the name and address of the bidder.

Proposals shall be properly and completely executed on Indiana State Form of Proposals No. 96, with Non-Collusion Affidavits attached and fully executed, and accompanied by Indiana State Board of Accounts Questionnaire Form No. 96-A. Each proposal shall be accompanied by a check or bank draft payable to Embert V. Gardner, Trustee of Russell Township, or by a satisfactory bid bond executed by the bidders and a surety company, in an amount equal to 5% of the maximum bid, as evidence that the bidder will, if awarded a contract or contracts, enter into the same on notification. Should any bidder fail to enter into a contract with said trustee in accordance with the terms of his bid, then the amount deposited by such bidder, or the principal of said bid bond, shall be forfeited to and become the property of the Trustee of said Township, and shall not be refunded. I LEARN FROM WATCHING MAMA

The school of experience has a wide reputation, and many are those who are proud to be its alumni.

But there is another school, an elementary school. And though it's less heralded, it turns out eager scholars year after year.

It hasn't really any name, and certainly no ivy-covered halls. Classes are held in the students' own homes. And the tuition is a wealth of love contributed by pupil and teacher alike.

But this is the best preparatory school in the world. For whatever it teaches has a place in the life of its graduates forever.

And the most encouraging sign on the spiritual horizons of America is the greater emphasis now being placed on the Bible, prayer, and religious education in the school of "watching mama!"

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
